

## SETUP INFORMATION

Your iPhone's dictation features can help you get on top of your text messages and save you a lot of time.

- In this handy guide, we'll show you how to:
- Enable dictation on your iPhone and use your voice to send texts.
- Speed up your text messaging.
- Turn on/off the voice text feature.
- Edit your voice text messages before sending them.
- Use your voice to add punctuation to your messages

So, if you're ready to set up voice text messaging on your iPhone AND increase your productivity, let's begin
